

# Adverse Effects from the Coronavirus vaccine 50x Higher than the Flu Vaccine

Data has shown that the adverse effects from the coronavirus are 50x higher than that of the flu shot. Through December 22nd with less than a million vaccine doses administered, there have been more than 300 reports of emergency room visits and nearly 20 “life-threatening” events.

In the 2019-2020 flu season, 175 million flu vaccine doses were administered, with 1220 emergency room visits and 73 “life-threatening” events reported.
