# Bush-Obama Presidential Commemorative Coin

## Act Now! (satire)

In light of President Obama's continued efforts to clean up our environment by pushing for clean coal and nuclear power, signing the extension of the Patriot Act, and his inspiring warlord like acceptance speech for the Nobel Peace Prize, we at Organic Lifestyle Magazine have decided to release this limited edition commemorative presidential coin featuring our president Barack Obama on one side and our former president George W. Bush on the other.

In Greed we trust.

As Obama continues to disappoint liberals and conservatives alike with broken promises and general short comings this minted official fake coin is bound to increase in value.

For only **$49.95** you can have this official "Two Sides of the Same Coin" presidential memorabilia. If you order now we'll pay shipping and handeling!

Disclaimer: This coin is not real. Half of all proceeds from people who send us money to purchase this coin will be donated to the Tea Party. The other half will be donated to the Green Party.

Disclaimer 2: We would never ever donate money to the Tea Party, ever!

Disclaimer 3: We will not be donating any money to anyone. We tree huggers will keep it to ourselves.
