

# The Secret of Oz

## If only everyone would watch this film

Why are we as people and as a nation in so much debt? Why do our corporations continue to enslave us and brainwash us? Why are we always at war? Why do corporations control our government? Why are our medical system, food system, and educational system so corrupt? Why do we incarcerate so many people? Why is our nation failing financially? And what could we do to fix all of this?

This video explains it very well. If only everyone would watch it.
