Urban Homesteader Produces 6,000 lbs of Organic Food on 1/10th Acre

The Dervaes family grows more than 6,000 pounds of food a year, on 1/10 acre located just 15 minutes from downtown Los Angeles.

With over 400 species of plants, 4,300 pounds of vegetable food, 900 chicken and 1,000 duck eggs, 25 lbs of honey, plus seasonal fruits throughout the year, they are able to produce over 90% food they eat, and they sell food on their front porch making about $20,000 a year.
