

# Wikileaks Priceless Parody

At OLM we believe that knowledge is power, and transparency is the key to emotional and spiritual human evolution. This is why we love WikiLeaks. We as a society will not learn from our mistakes when we hide them. We as a society will not grow spiritually if we do not learn from our mistakes. Humans will continue to be at war as long as we continue to hide truth.

WikiLeaks follows this philosophy. They believe the government should work for us. They believe in transparency. They believe in accountability. And we love what they are doing. And we understand the fight they are going through.
